

# BZT260

## AUTOMATIC SLIDING BOXING MACHINE

BZT260 AUTOMATIC SLIDING BOXING MACHINE is designed to align already fold-wrapped single square or cylinder shaped hard or soft candy products including bubble gum, chewing gum, toffee, caramel, milky candy into a stick, to fold the cardboard into a carton and then to pack the candies by the carton

### Special Features

- Programmable controller, HMI, integrated control
- Vacuum-absorb inner and outer cardboard and automatic box making systems
- Positioned glue spraying and packing system
- No candy no paper, automatic stop when candy jam appears, automatic stop when wrapping material run out
- Automatic defective products rejection system
- Modular design, easy to maintain and clean
- CE safety authorized
- Norson glue hot-melt device
- Schneider controlling system and screen
- Vacuum pump and vacuum module

### Combinations

- It can be combined with SANKE's fold wrapping machine BZW1000 to form an automatic boxing packing line

### Main Data

#### Output

- 300 pcs/min
- 30 boxes/min

#### Size Range

##### Single Product Dimensions (Round)

- $\Phi$ : 15-21 mm
- Height: 8.5-10 mm

#### Products Per Box

- 5-10 pcs/box

#### Box Dimensions

- Length: 53-120 mm
- Width: 17-23 mm
- Height: 17-23 mm

Special sizes upon request

#### Connected Load

- 20 kw

#### Utilities

- Compressed air pressure: 0.5 MPa
- Compressed air supply: 0.7 MPa

#### Wrapping Material

- Already well shaped paper plate (Cardboard)

#### Machine Measurements

- Length: 4000 mm
- Width: 1300 mm
- Height: 2350 mm

#### Machine Weight

- 1500 kg
