

UJB2000

MIXER WITH DISCHARGING SCREW

UJB serial mixer is a confectionery material mixing equipment, which meets international standard, suitable for mixing toffee, chewy candy, gum base, or other mixable confectioneries

Special Features

- Adopts SEW motor and reducer
- "Z" shaped stirrs keep small space to inner side of the tank
- Main stir and assistant stir are driven by one motor with reducer via a pair of gears, speed is adjustable by a converter
- Discharging screw is driven by separate motor, speed is adjustable by a converter
- Open or close outlet is controlled by cylinder, mass is discharged by screw automatically
- Stirrs, batch, chamber of discharge screw is jacketed design and can be heated and current temperature is shown on screen
- Programmable controller, HMI, integrated control
- Modular design, easy to disassemble and clean
- Contacting parts are made of SS304, dustproof design, meets GMP standard
- CE safety authorization

Main Data

Volume
- 2000 l

Connected Load
- 100 kw

Allowed Compression of Jacket
- 2-3 kg/cm²

Machine Measurements
- Length: 6000 mm
- Width: 1800 mm
- Height: 3500 mm

Machine Weight
- 16500 kg

Combinations

- UJB2000 can be combined with SANKE's TRCJ extruder, TRCY, ULD cooling tunnel, BZK, SK-1000-I, wrapping machines BZW1000 and BZH for different candy production lines
