

Round

Rectangular/Square

Concave

TRCZ135

HORIZONTAL ROPE SIZER

The TRCZ135 Horizontal Rope Sizer adjusts the distance between two forming wheels by rotating the adjusting handwheels on the machine, thereby producing candy ropes that meet dimensional requirements. It can also produce candy ropes in various shapes such as round, square, and concave by replacing the forming wheels. The TRCZ135 can be equipped with 2 to 5 pairs of forming wheels according to product attributes, meeting the shaping needs of various types of candy ropes including chewy candies, toffees, soft candies, and bubble gums

Special Features

- Each set of forming wheels is driven by an independent motor
- Forming wheels can be replaced arbitrarily
- Handwheel for freely adjusting the horizontal spacing of forming wheels
- Wide adaptability to sugar ropes of various sizes
- Programmable motion controller, human-machine interface, integrated control
- Screen displays abnormal alarm prompts for various sections
- Modular independent design, easy disassembly and cleaning
- CE Certification

Main Data

Rope Speed

- Base speed 12-17 meters/minute, can match extrusion speed according to actual requirements

Rope Size Range

- Width: 5-30 mm
- Height: 5-30 mm

Connected Load

- 2kW

Machine Dimensions

- Length: 540 mm
- Width: 750 mm
- Height: 1,600 mm

Machine Weight

- 400kg
