

UJB2000

MIXER WITH DISCHARGING SCREW

UJB2000 mixer is a confectionery material mixing equipment, which is a perfect solution for large quantity mixing requirement and is suitable for producing toffee, chewy candy, gum base

Special Features

- Adopts SEW motor and reducers
- Hollow "Z" shape stir keeps small space to inner side of the tank
- Main stir and assistant stir are driven by one motor with reducer via a pair of gears, speed is adjustable by a converter
- Discharging screw is driven by separate motor, speed is adjustable by a converter
- Open or close outlet is controlled by cylinder, mass is discharged by screw automatically
- Stirs, batch, chamber of discharge screw are jacket design and can be heated and current temperature is shown on screen
- Programmable controller, HMI, integrated control
- Modular design, easy to disassemble and clean
- Contact parts are made of SS304, dustproof design, meets GMP standard
- CE safety authorization

Main Data

Volume

- 2,000 L

Connected load

- 100 KW
(external heat supply by the buyer's factory,
allowed compression of jacket: 2-3 kg/cm²)

Measurements

- Length: 6,000 mm
- Width: 1,800 mm
- Height: 3,500 mm

Machine Weights

- Approx. 16,500 kg

Combinations

UJB2000 can be combined with SK's other production equipment like TRCJ extruder, TRCY, ULD cooling tunnel, BZK400, SK-1000-I, BZW1000, BZH and SK's wrapping machines for different production lines
