

UJB 300/500

MIXER

UJB Series Mixer engineered to international standards, designed for the production of chewing gum, bubble gum, and other confectionery requiring high-performance mixing

Special Features

- Equipped with SEW-branded motor and gear reducer for stable and reliable operation
- “Z” -shaped mixing blade with minimal clearance to the tank wall ensures homogeneous mixing, enhanced efficiency, and convenient discharge
- The mixing tank is flipped via motor drive, facilitating easy discharge and ensuring low failure rate
- Soft-start mode effectively protects electrical components and extends their service life
- Jacketed tank body provides thermal insulation and features temperature display
- Integrated control system with programmable logic controller (PLC) and human-machine interface (HMI)
- Modular design allows for easy disassembly and cleaning;
- Dust-proof construction
- CE certified

Main Data

Volume

- 300L or 500L

Connected Load

- 30-40kW

Allowed Compression of Jacket

- 2-3kg/cm²

Machine Measurements

UJB300:

- Length: 1,931 mm
- Width: 1,564 mm
- Height: 1,438 mm

UJB500:

- Length: 3,500 mm
- Width: 1,500 mm
- Height: 2,500 mm

Machine Weight

- 6,500kg

Combinations

UJB300/500 can be combined with Sanke's TRCJ extruder, TRCY, ULD cooling tunnel, BZK, SK-1000-I, wrapping machines BZW1000 and BZH for different candy production lines
