

ZHJ-B300

AUTOMATIC BOXING MACHINE

ZHJ-B300 automatic boxing machine is a perfect high-speed solution which combines both flexibility and automation for packing products such as pillow packs, bags, boxes and other formed products with multiplegroups by one machine. It has high degree of automation, including product sorting, box suction, box opening, packing, gluing packing, batch number printing, OLV monitoring and rejection

Special Features

- Programmable controller, HMI and integrated control
- Screen displays alarm of each part
- 'No box no product,' 'no product no box,' 'box shortage alarm,' 'automatic stop when product jam appears'
- Robotic arm feeding, servo motor driven product sorting, dual servo motor driven continuously feeding, servo motordriven product pushing, dual servo motor driven continuously box feeding and packing
- Quick replacement of parts with different packaging specifications

Main Data

Output

- Max. 300 boxes/min

Box size range

- Length: 120-240 mm
- Width: 30-100 mm
- Height: 20-100 mm

Connected Load

- 40 kw

Utilities

- Compressed air consumption: 200 l/min
- Compressed air pressure: 0.4-0.6 mPa

Wrapping Material

- Formed carboard box

Machine Measurements

- Length: 11200 mm
- Width: 2480 mm
- Height: 2480 mm

Machine Weight

- 8000 kg
